- Remove the creation of the block text file.
- Add the weekly, monthly, and quarterly separation of files to be more organized.
- Add the time it is uploaded and time for its deadline.
- The roles of each user should be added based on its position in the organization (that is all indicated in the CAPSTONE DETAILS document).
- Add functionalities for sorting the files based on the document (word, excel, pdf, etc.).

- Remove the share to group option.

- IF THE UPLOADING OF FILES IS FOR (weekly, monthly, quarterly): it needs to be sent to a particular person. This is also for the role-based.

TEACHER-> GRADECHAIRMAN-> PRINCIPAL-> DISTRICT SUPERVISOR

- IF THE UPLOADING OF FILES IS FOR RANDOM PEOPLE WITHIN THE ORG: they can search for the name of that specific person then select it, they can also send it for a particular or even in multiple people within in the organization.
- The add new file should be “upload”.

VIEWING OF FILES

The screenshot shows the WeConnect 'File' interface. On the left is a sidebar with navigation options: Dashboard, My Files, Pinned Files, Shared with me, Trash Files, Settings, Admin, and Log out. The main area displays a file named 'Contextures' with a preview of an Excel spreadsheet. The spreadsheet content includes a title 'Contextures', a subtitle 'Drop Down with Latest Items at Top', and a 'Notes' section with three points about Excel functions (MAXIFS, SORTBY, and spill operators). On the right, the 'File Details' panel shows the following information:

Filename:	datavallatestitemstop.xlsx
File Type:	raw file
File Content Type:	application/vnd.openxmlformats-officedocument.spreadsheetml.sheet
Uploaded By Id:	82
Share to User:	0
Share to Group:	1
Deadline:	2021-12-31
Revision:	1
Date Upload:	2021-12-13

At the bottom of the details panel are buttons for 'UNPIN' and 'TRASH'.

- File type needs to display what type of file it is (word, excel, pdf, png, etc).
- Remove the share to group.
- Shared to user should display the name of the user who you shared the file with.
- Add the time for the date upload and its deadline.
- Revisions only allow those employee who can edit their file based on the role-based. (also stated at the CAPSTONE DETAILS document).

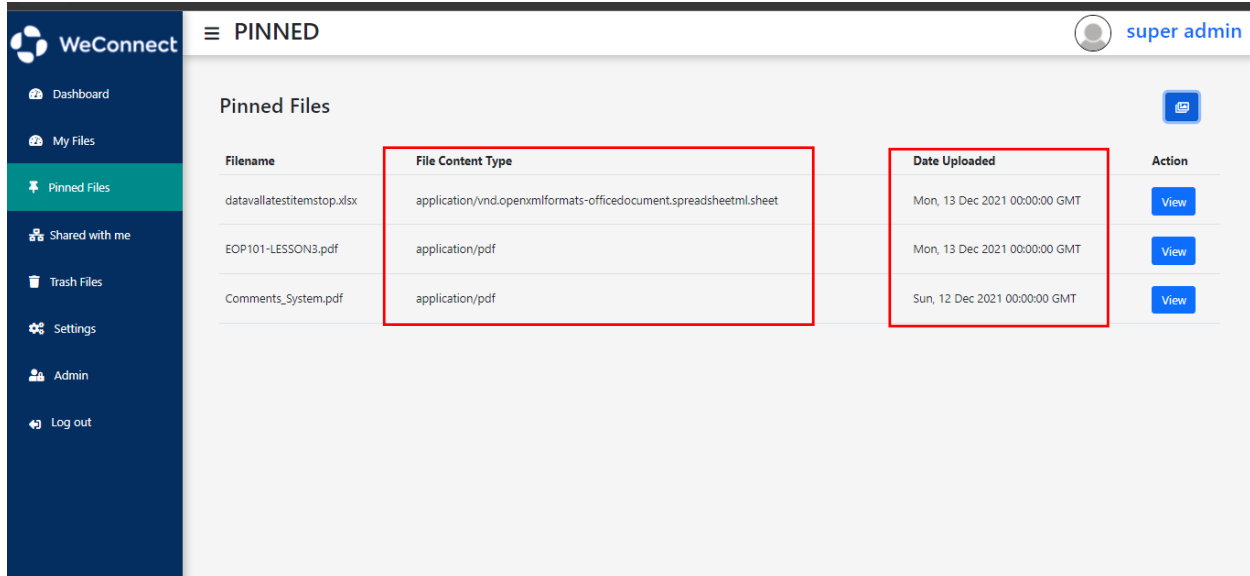

PINNED FILES

The screenshot shows the WeConnect 'PINNED' interface. The sidebar is the same as in the previous screenshot. The main area is titled 'Pinned Files' and displays three file cards:

- datavallatestitemstop.xlsx**: Excel icon, Mon, 13 Dec 2021
- EOPI01-LESSON3.pdf**: PDF icon, Mon, 13 Dec 2021
- Comments_System.pdf**: PDF icon, Sun, 12 Dec 2021

- The files should also sort based on what kind of document it is (word, excel, pdf etc.).
- The only documents that a specific user can pin will be coming from random people in the organization. Not the files belonged to the weekly, monthly, and quarterly files.

PINNED FILES IN LIST

The screenshot shows the 'PINNED' section of the WeConnect interface. The left sidebar contains navigation links: Dashboard, My Files, Pinned Files (highlighted), Shared with me, Trash Files, Settings, Admin, and Log out. The main content area is titled 'PINNED' and 'Pinned Files'. It displays a table with the following data:

Filename	File Content Type	Date Uploaded	Action
datavallatestitemstop.xlsx	application/vnd.openxmlformats-officedocument.spreadsheetml.sheet	Mon, 13 Dec 2021 00:00:00 GMT	View
EOP101-LESSON3.pdf	application/pdf	Mon, 13 Dec 2021 00:00:00 GMT	View
Comments_System.pdf	application/pdf	Sun, 12 Dec 2021 00:00:00 GMT	View

- File content type should be file type.
- Add the time it is uploaded.

SHARED WITH ME

The screenshot shows the 'SHARED FILES' section of the WeConnect interface. The left sidebar contains navigation links: Dashboard, My Files, Pinned Files, Shared with me (highlighted), Trash Files, Settings, Admin, and Log out. The main content area is titled 'SHARED FILES' and 'VUE TESTING'. It displays a list of shared files, but the content is currently blank.

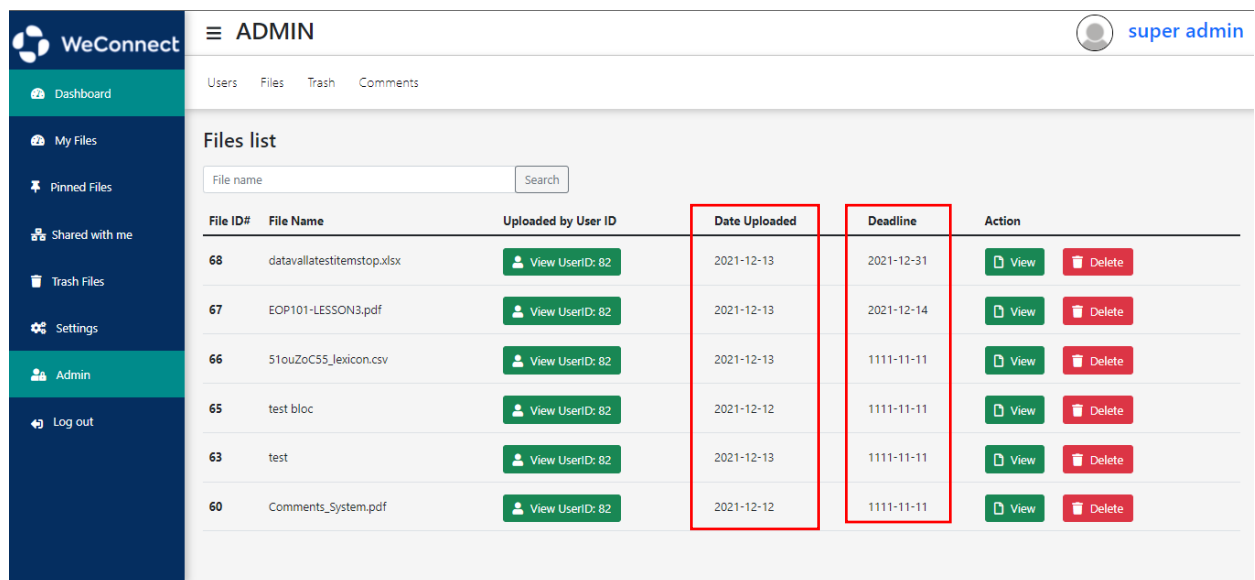

- The sequence should be based on its recency, or the files can sort based on what kind of document it is (word, excel, pdf etc.).
- Pinned files should be viewed in two ways: thumbnail or list.

TRASH FILES

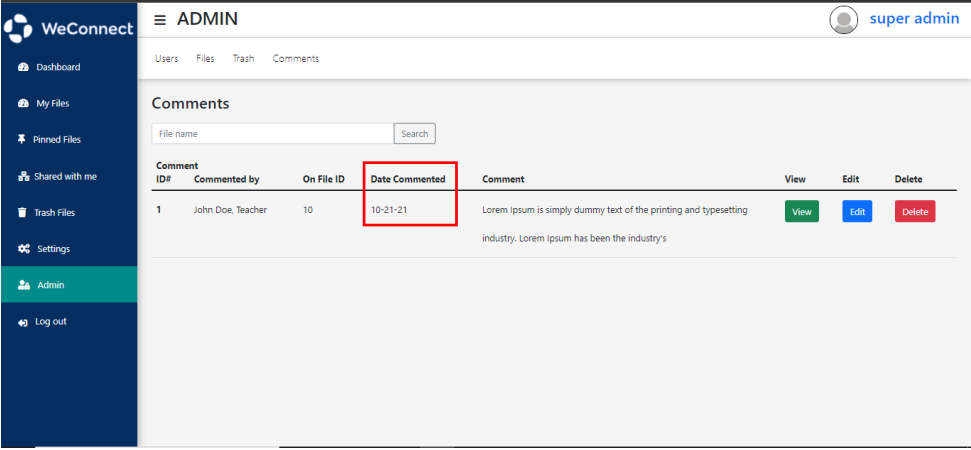

- The files should also sort based on what kind of document it is (word, excel, pdf etc.).
