- Add here the upload new file part removed on the dashboard.
- Add here the creation of the block text and CSV that is removed on the pinned files section.
- Add the weekly, monthly, and quarterly separation of files to be more organized.
- The delete option is not yet functional.
- The roles of each user should be added based on its position in the organization (that is all indicated in the CAPSTONE DETAILS document).

PINNED FILES

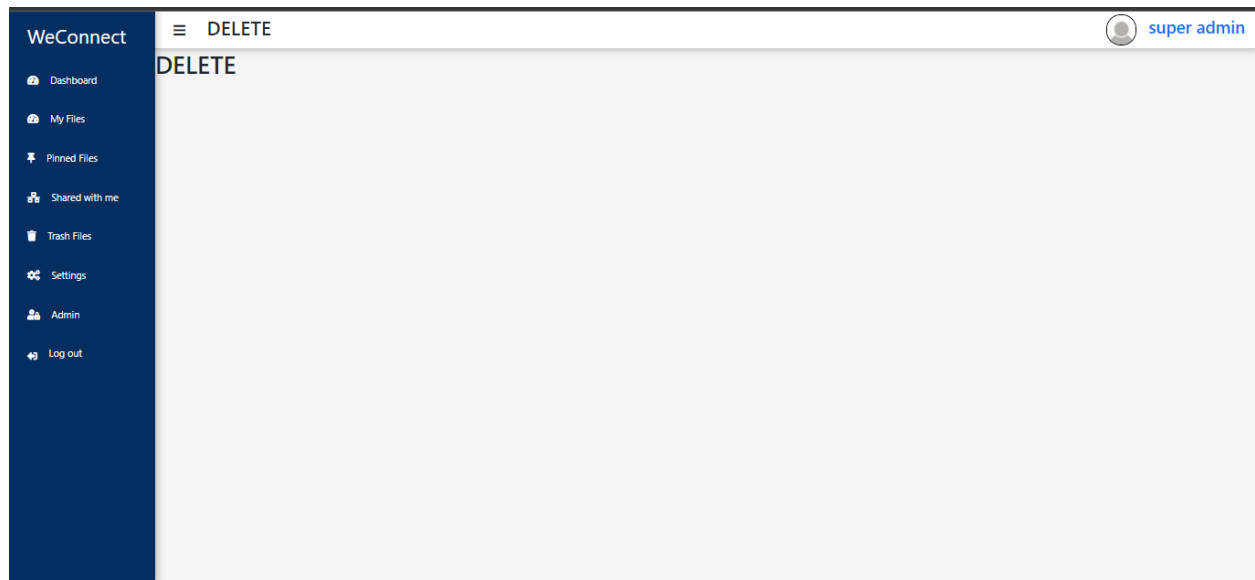

- Remove the create CSV document, block text file, and upload a new file.
- The sequence should be based on its recency.
- Add the title and its date.

SHARED WITH ME

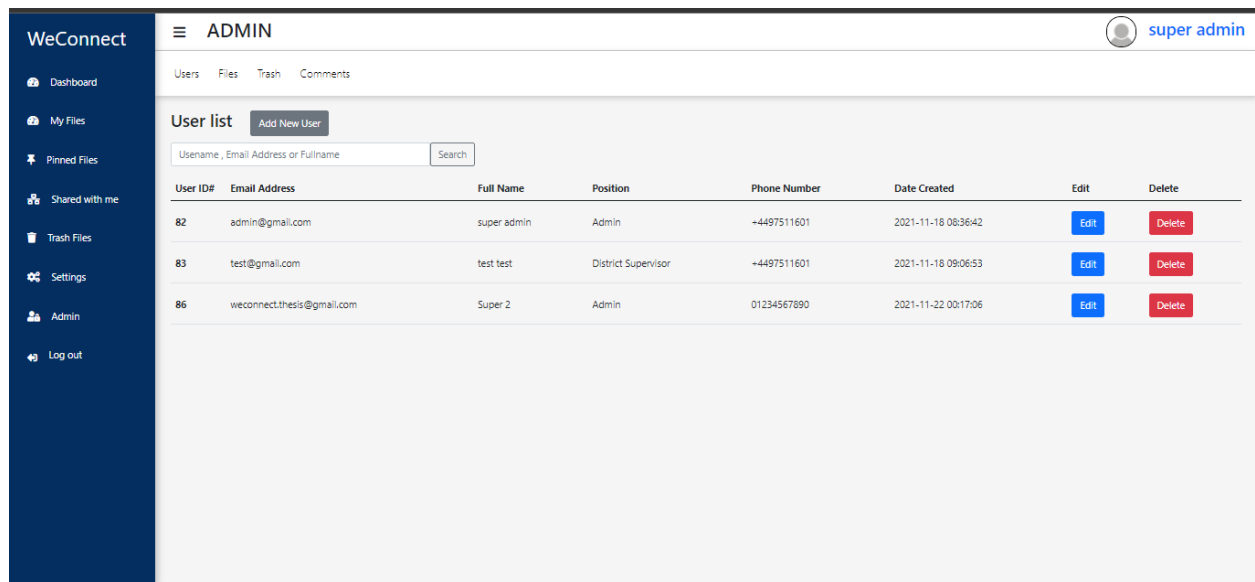

- The only documents that a specific user can pin will be coming from random people in the organization. Not the files belonged to the weekly, monthly, and quarterly files.
- It can also be listed based on its recency.

TRASH FILES

- It can also be listed based on its recency.

ADMIN

- This part should be visible only on the admin itself.
- ADMIN: the one who can apply the CRUD for the users.
- USERS WITHIN THE ORG: maybe this option can be changed into a help section? They can ask questions or some information that is related to it.

SIDEBAR

- Highlight the part that is currently in use.
- The parts (texts) are not aligned with each other.
